Emergency Plan Summary and Evacuation Drill Record

Vleikuiken Cold Storage, Voorbaai depot. Plan reviewed March 2026; drill held 21 April 2026

1. Scope and emergencies planned for

This summary covers the Voorbaai depot (fictitious address: 8 Kaap Street, Voorbaai, Mossel Bay): two cold rooms, the blast freezer, the ammonia plant room, the loading dock and the office block, with usually 46 people on day shift and 12 on night shift. It plans for fire, an ammonia release, a person trapped in a cold room or the blast freezer, a serious injury or medical emergency, and a security emergency at the dock. The full plan, the site plan and the fire risk assessment are filed with this summary.

2. Roles

Role	Name (day shift)	Name (night shift)	Duties
Chief emergency controller	Anele Jacobs, Depot Manager	Ruan Pieterse, Shift Supervisor	Declares the emergency, calls emergency services, decides on evacuation, meets the fire brigade
Fire marshals	Lindiwe Cele (offices), Kobus Smit (dock)	Ruan Pieterse	Sweep their area, close doors, report to the assembly point
First aiders	Lindiwe Cele, Mark Arendse	Nosipho Zulu	Give first aid; bring the first aid box and trauma kit to the assembly point
Ammonia plant operator	Mark Arendse	Callout: Ammelkor Refrigeration (fictitious contractor)	Shuts down the plant from outside the plant room; never enters without breathing apparatus and a second person
Roll call	Reception administrator	Security officer at the gate	Brings the visitor and contractor register and the shift list; reports missing people to the controller

3. Assembly points

Assembly point	Location	Use
AP 1 (main)	Front car park, next to the main gate, upwind of the plant room in the usual south westerly wind	All emergencies

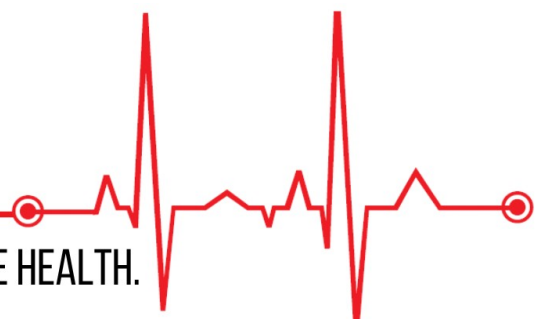

Assembly point	Location	Use
AP 2 (alternative)	Truck yard, east fence	When the controller announces that AP 1 is unsafe, for example an ammonia release drifting toward the car park

4. Emergency contacts

Who	How to reach them
Ambulance	10177, or 112 from a mobile phone
Fire brigade and local municipality emergency line	Number on the contact list at reception and in each marshal's file
Nearest hospital with an emergency unit	Named with directions on the contact list at reception
Chief emergency controller	Radio channel 1; mobile numbers on the contact list
Ammonia refrigeration contractor (24 hours)	Callout number on the plant room door and the contact list
Armed response company	Panic buttons at reception and the dock office

5. Drill record

Item	Record
Date and time	Tuesday 21 April 2026, 10:15, day shift, announced to managers only
Scenario	Simulated ammonia release in the plant room; controller moved everyone to AP 2
People on site	44 employees, 3 visitors, 2 contractors (49)
Time to clear the buildings	4 minutes 40 seconds from the alarm to the last marshal's report
Roll call	Complete at 10:24; all 49 accounted for
Observers	Refilwe Mahlangu, Health and Safety practitioner registered with SAIOSH (fictitious), with Anele Jacobs, chief emergency controller
Next drill	At the interval the emergency plan and the risk assessment set, on night shift so that the night team practises too

5.1 Findings and actions
